How to login to the QuickSmart learning space

As part of your professional learning about QuickSmart, an online learning space has been set up to support you and provide a means for you to share with others in your School Area or Diocese, as well as with the wider QuickSmart community of practitioners.

The QuickSmart online learning space has been set up at the University of New England. It uses Sakai, one of the University’s online learning environments that are used for students.

To access the QuickSmart learning space, you will need the school user id and password emailed to your school from the QuickSmart team at UNE.

Please note, the user id and password have been assigned to your school, not to individual QuickSmart coordinators and tutors. All QuickSmart personnel at your school will need to use the same username and password to access the learning space.

Please follow the instructions below to login to the QuickSmart online learning space.

1. Connect to the Internet and go to the QuickSmart website http://www.une.edu.au/simerr/quicksmart
2. Click on the menu link ‘Login to QuickSmart’
HINT: This is the UNE Sakai home page. It provides information about how to use Sakai, which you may be interested in reading at a later stage.

3. Click on 'non-UNE login.'

4. Enter your user id and password, then click ‘Login’.
You are now inside Sakai on your school’s personal workspace. **HINT**: You may wish to further explore this area later.

5. Click on ‘UNE Quicksmart Learning Space. N.B. To come back to ‘My Workspace’, click on the ‘My Workspace’ link.
